What if... Just Think, What if?

What if what we sell here is legitimately incredible and you discovered that this system changed people's lives?

What then?

What if while you were living your life as usual, you earned \$500 per week here simply by sharing this booklet?

What then?

What if you went about your day and did what you normally do but you mailed 25 of these booklets each week to leads that we supplied you with and you made an extra \$500 to \$1,000?

What if there was no confusing website to manage or anything time consuming... and all this was... was about getting this single booklet into as many hands as you could? **What then?**

What if there was a mastermind support club such as ours where there were average people from all walks of life earning \$1,000's per week and you could associate with them via conference calls and webinars? **Would that benefit you?**

What if now, through our system, you would have a product that made you a nice chunk of extra money on the side and you never had to explain anything, make deliveries or do anything but circulate this book? Share it online or offline.

What if you discovered that money is all around you and money is everywhere and your life changed virtually within days? What if you study this booklet, join and make money?

Make Copies of this Booklet + Circulate = Simple Money!

Money is Everywhere... Prosperity is All Around You!

Money is everywhere and prosperity is all around us and those of us who agree with that notion tend to gather more money from more people. It's not complicated to make the money you want so that you can live the life that you want.

NOT TRUE! Why do most people struggle then?

Easy. Most people struggle because they don't believe this is possible. Most people have been programmed (by society) to believe that working hard for menial wages in an economy that spits them out all the time... is "normal and "the only way to make money ethically."

WOW! Talk about brain washing, right?

Most average people have a belief that money is a "job" or a position. That's not true. Others like me, have the belief that "LIKE-MINDED PEOPLE" are financial freedom in human form and so, those believers of prosperity sit among many people and then collect money from crowds of like-minds.

Hey, listen. Every single major corporation on the planet; every retailer, every bank, every credit card company, every Walmart, every Amazon, every Apple (hi iPhone!) and every major brand in the civilized world knows that YOU are money.

And they create simple messages that attract you to their products, and when you agree with their message, you buy and they make billions of dollars by having you send them a few bucks here and another few bucks there.

What's my point?

Why not do that... amongst each other and help our buddies get rich? Why not flip the script and use it help others get free?

Here's what I mean...

Why did Tony Robbins have late night TV commercials and sell his \$177 audio CD Personal Power Program? Because he knew **other people were thinking the same thoughts as he was.**

Why did I create my training courses and write this booklet?

Because money is everywhere and I knew other people – not a job – were thinking exactly as I was. I knew you'd be here reading this right now. How cool is that, right?

THIS IS TOO GOOD TO BE TRUE!

Oh come on, you're smarter than that, right? You don't want to argue against something that's designed to actually help you, do you? Look here's why this happens...

Some people "argue" with **this amazing concept** and choose to stand before an employer and ask, *"My title and education is worth \$62,000 annually, are you hiring, I'll take \$33K!?"*

Watch this next thought now, pay attention, this is DEEP!

Others with a higher belief stand alone and speak their desire into society (hi facebook and instagram!) and wait for other people to agree with them (wow). Just like major brands.

Money is everywhere and sits within the pockets of other people. It's a choice. You can decide to think **scarcity** and only ask one person (hi boss!) for income or you can circulate your INTENTION (and a solution) into society and wait for others who were thinking just as you were, to raise their hands and say:

"Yes, I was thinking that too! Can I buy a ticket and watch?"

"What You Give Away, You Always Get To Keep."

How Simple Messages Turn Into Cash

Everyone likes to think out loud and it's even better when you can speak what you think – and other people think with you and then they add their thoughts to what you already said you believed.

They call that “*having a conversation.*”

Most people however, only have those conversations in small tiny little groups. They do that at the bowling alley, at their family weekend BBQ and they text each other... **one at a time.**

Then there are some people who decided to have those thoughts publicly and speak to thousands and even millions at a time. What was the Oprah Winfrey TV show but just a few people chatting about a book with 7 Million people a week eavesdropping? **Wow, right?**

What is the Late Night show or American Idol but a few people sharing an idea back and forth with an audience who pays to watch?

Back in the mid-nineties there was a famous mail-order full page ad that ran in work-from-home entrepreneur magazines.

The headline was...

“How I Make \$1,000 a Day in My Underwear.” Sounds stupid, right? Well guess what? I bought that little nutty \$15 course from its creator and in that little course he explained his genius mail-order techniques and even showed bank statements that proved he made not \$1,000 a day, but often \$5,000!

How? Because his “front-end” \$15 course was simply a hook to get guys like me to order his \$600 package. Of which I did.

This booklet makes you money.

Stories. Conversations. Simple Messages Made This Guy Rich, Just Like They Made Johnny Carson Famous.

His Secret? All he did was start with a belief that other people would be thinking what he was and he placed ads that collected the energy – “money” – from those people who wanted to extend that conversation and who trusted him enough with \$15 bucks.

PS, and by the way... his \$600 course taught me so well that I used what I learned to build a monster sized home business. And all because I was open enough to trust a stupid ad that said anyone could actually earn \$1,000 per day sitting home in their underwear. Most people didn't believe the vision and they ignored it... I believed and made BANK.

What will you do? Who knows... but here's more gold for ya.

That is EXACTLY what the system we sell is all about. The “how to” and “why to” of how to think, how to market and how to draw big crowds who want to send you money and buy whatever you're selling.

And guess what? There are MILLIONS of people just like us who want to have that conversation. Just google and search on these words to prove it to yourself: “make money from home” or google the words “home based business” or “attraction marketing.”

At last count, there were over 4,780,000 on my name alone.

That proves once again, there are hundreds of thousands of people having the SAME THOUGHT as you and if you place an offer in front of them, to think more richly with you, they will pay you for that pleasure.

Why else would people pile into my live conference calls?
Why else would people be making money sharing this booklet?

People who think what you're thinking will pay you!

**Money is ALL OVER The Place!

4.4 Million Books

It's Just a Simple Message. A Conversation.

Like her... don't like her... TV Food Network legend Rachael Ray with her "30 Minute Meals" sold 4.4 million books in 2008. Her secret? Simple. She sat on TV and chatted about fast meals. She created attraction by talking about her mother, her upstate NY upbringing, giggled a lot and gave total value.

The result? Over four million people said, "Hey, I'd like to take you home with me and extend our TV show relationship to my life. Do you have a book?" **Money is Everywhere!**

All you have to do is give other people the means and reason to share with you what is already in their pockets.

Footnote: The energy you believe in, is the same energy that will endorse or curse you. If you believe in an energy called "not enough" ... you'll live to prove it. You'll always have "not enough."

However, if you decide to believe that the world will support you, which is exactly what true prosperity consciousness believes, you, like me, will live to have thousands of total strangers send you money to experience what you believe as an extension of their admiration of you.

The “scarcity” (not enough), “life sucks” mindset thinks like a pizza.

“Oh, no! Two slices are missing with only six left.”

In scarcity thinking **you subtract** from what is there, to divide a mindset of “not enough.” In true prosperity, you are responsible for MAKING the pie, which then allows you **an endless supply**.

You have the power to make as much pizza as you want on your own.

With enough dough you never run out of pizza. Ever!

How My Simple Conversation With Thousands of Facebook People Turns into an Endless Stream of Monthly Passive Income. How to Turn \$99 into \$6,000/mth.

Money is Everywhere! Especially in the pockets of other people.

So, what I did was create a simple conversation.

I never actually had to tell people exactly what the product was. All I did was tell a story and would you believe that by me not saying what the product actually was, people's imaginations go wild and then my ad becomes virtually impossible to resist. Especially with my "easy to duplicate" booklet that you're reading right now.

Quick, get back with the genius who shared this with you and get to the website and watch the video. It's magic and makes you money. It helps my entire team bring in boatloads of commissions daily again and again. It's all about simple messages that empower people.

Just one e-magazine I use to post a simple 4 line ad has only a subscriber base of 22,000 and even with 21,200 readers **IGNORING** me... what is 300 people times \$20? That's **a true money river** that creates \$1,000 weeks like clockwork. And there is passive income built in too.

Money is Everywhere. All you have to do is put what you are thinking in front of enough people and wait for others who were thinking what you were to agree with you.

And when they do, they tend to “vote” for you in the form of a check, money order or CC card. Most newbies work with too few a number. They only speak or advertise to a few.

The secret is to be in front of thousands of people per day.

It's all just numbers.

Circulate ads = people send you orders. You receive MONEY. No deliveries. You get money and delivery is automated for you. Everything is online.

How To Employ Your Subconscious Mind

When you wanted to get married, it was a MUST, not a maybe. From there, your subconscious went to work and found you a mate. Just like when you decided to buy a car. Also when you left school and decided to get a job. Notice how in all of those instances, you got what you thought about and what you actually demanded?

So we already know that YOU know how to literally “THINK” your way into getting whatever you put your MIND to FOCUS on, right?

**You Think About Money All The Time.
That's How You Attracted This Message!**

This booklet is further proof because isn't it also true that you think about money – a lot – and this book is actually speaking to you right now about what you were already dreaming about? This is amazing! It works.

Okay, now take what you already know how to do and just take it a step further... try this little self meditation for 90 days and see how much more LIFE and more OPPORTUNITY knocks on your door... say this meditation morning, noon and night for 90 days:

“I am (your name) and I am rich. I know that \$10,000 in new money already exists. I simply don’t know where it is. Please come to me by way of people and opportunity and prove yourself to me. I am POWER. I am PROSPERITY and I release the need to know from where, or when, I just know the \$10,000 already exists and I am now calling that to be delivered now, in my life. Thank you. Thank you. Thank you.”

**Learn To Train Your Subconscious To Work For You 24/7
Go to the website stamped on this booklet!**

Why That Works To Make You Richer

Money and opportunity is everywhere. And when you teach your subconscious to believe that fact, like a puzzle, your body and nervous system *will be forced to prove that back to you as true.*

All you have to do is believe in the words that you use. That’s because the subconscious loves you so much, it protects you from things you secretly, deep down fear or actually don’t believe. The poor always think poorly and so their brains **live to prove** what the poor think about all day and all night, *“I am poor.” “Life sucks.” “It can’t work.”*

So try it now. However, you'll have to believe that OUTSIDE of you is money and **people are actually waiting to help you.** And that assumes that you already have prosperity consciousness. As soon as you believe that people suck or "it's a scam" or think like the "pizza brain" and that there aren't enough slices to go around, you cancel out more money and the very people who can help you.

Don't argue for "broke!"

Most people believe that whatever they do as a "job" is all that they are allowed to do. So the barber is only a barber and the accountant isn't interested in anything outside of what his "career" is. Great for them. To each their own. However...

I chose to think differently. I made freedom my goal and not necessarily *how I made the money*. That's why today I have 12 incomes. I never penciled myself into only one way for money to find me. Same with Donald Trump. He believes that money is everywhere too. That's why he earns in **37 different** ways!

"Real" Money isn't a job. It's actually just a belief.

Recession or Obsession: You Decide.

Money is Everywhere. The only "recession" or economic downfall is man's lack of decision to receive (read that again).

If we are in a recession, how can you explain the new books which have become best sellers? Last month I made more in a single month than many folks have earned in the past year.

So tell me again about the recession and then I'll ask, "How is Morgan Freeman making more income today than he did ten years ago?" His new movies are everywhere plus he has a show about Cosmology and Quantum mysteries. **What recession?**

How come senators and CEO's are still making money-rivers when others are destitute? Because some people agree to only work where money is no more, while others create new streams. It's hard to ask or expect money in a location that has stopped sharing it.

So why complain if you, in fact, refused to change?

"You Can't Complain About What You Permit."

I decided to obsess not over money itself, but how I can serve more people with more of it. So I became a crazed mule. I dreamed about what money could do for other people and I read over 2,000 books on the laws of attraction and decoded some of the most deft and profound marketing concepts ever devised.

I took copious notes and created over 70 legal pads ***of plans.*** I learned that a life without a plan is a life planning to fail, whereas those who map out and plan their life usually plan to and become wealthy. But that's just me.

What You Write Down, You Expect To Happen.

Money is Just An Idea. Here's Proof:

Money is like a ball. One day it's up and the next it's down. One day you have bushels of it, the next you don't, but eventually it bounces back in your hand. One day milk is \$2.86 over at WalMart and the next, it's \$4.10 at 7-11 because some CEO said, "Let's spike the price a bit because we can." Thanks 7-11!

One day 300 mortgage brokers decide to give everyone a mortgage and even those who can't really afford it. Then two years later the economy hiccups and unemployment is 9%.

Up and down and all because money is just an idea. One day your real estate taxes are \$4,500 and then oops, now they're up \$700 more and you now owe \$5,200!

"If you want to make more money, be where more people are thinking about more money and more people will share more money with you."

All I did was decide to be the guy talking about money and prosperity. So instead of waiting for customers or employers to agree with me, I created my own conversation and started to mumble out loud that **"Money is Everywhere."**

What's so hard about that?

7-11 said, "why not?" and so, I said the same thing, except I made a plan where myself and my buddies all could earn through the **energy of each other** and TRADE **prosperity** amongst each other. So we let go of scarcity thinking and included strangers. Now today, our message is worldwide.

How? Because one person had an idea and took action.

Cheap is Expensive (and Painful!)

Most people underestimate not only themselves, but other people. Case in point... At what point so far in this booklet have you thought to yourself, **“Who does he think he is?”**

But that’s okay. I don’t need everyone to agree with me because 2% to 7% **always do** and as such, I live a life most only dream about.

Money is Everywhere, except most people think too cheap and they undercut themselves and remain locked into a job that can barely pay their bills. Cheap is expensive because now without enough money you still have to buy stuff.

And now you do it on “credit” and are charged 21% to 32% late fees and guess what? Cheap is not only expensive, but it often hurts.

Imagine not having enough cash to buy a stainless steel fridge so you pay it on credit at Sears. Now because of late payments and their sinful interest surcharges, that blasted refrigerator actually costs \$3,100 where had you paid cash, it would have just been \$1,950.

People say, “What! My stars! \$150 for a home business!”

But look, cheap never endorses itself and besides, it’s **FAR easier to find 10 people** to give you \$150 than waiting to get ten times that many – 100 cheap people – to give you \$10 bucks for some lame little money game where you have to recruit a small country to just make minimum wage.

THINK SMARTER!

Besides, if John Lennon’s estate on June 21, 2010 can get \$1.2 million when they sold the original page he wrote one of his songs on, why can’t you earn a beautiful \$1,000/wk each

time you unlock people's life for only a lousy little \$150!
I decided. Others have agreed (1000s of them).

“A Day In The Life” – On Sgt. Peppers Album: \$1.2M

**A Programmed Machine That Collects Money, Not a
Wimpy Mushy Person Who Has to Ask "Permission"
of Others in Order to Succeed...**

The super successful among us are programmed to succeed. They don't have to ask anyone permission to take a shot at doing something big in life. They have spine and courage and make up their own minds without needing the approval of other broke people.

They don't measure falling down as failure and they are self programmed to “BE” as they believe they are rightfully allowed to expect. They operate with VISION. They see the future they want to design.

Machines don't ask other machines for motivation or worry about days off or wonder what the machine next to them is doing because the machine is self contained and a law unto itself. As you will be.

These Machines oil and fuel themselves and could care less what other machines think about them.

Today your word is law. Order my program and never look back because with my simple 60 minute per day system you too will be programmed to be richer. I write book after book, do seminar after seminar because I am simply programmed to. I am like a machine. Now you will be too. Allow no one on earth to dictate WHO you can be or how much you're allowed to earn.
